THE BANK QUESTION.

It cannot fail to be remarked, by the true friends of a sor of BANKING SYSTEM for Wisconsin that the leading Democratic presses, as well a the candidates on the Democratic ticket, are maintaining a root suspicious vilence in regard to this all in-portant issue. The Convention which no singled Mr. Uppay and his Colleagues on the Hunker Ticket, said not a nord about Banks. Our Democratic Secretary of State, in his official · notices of the Fall election, studiously avoids ellreference to the Bank question. Mr. UPHAM, the democratic " caudidate for Governor, the again and again interrogated on this point, refuses to make known his opinions. The Winconsin, Com-mercial, and other prints which sustain him. instead of advocating or opposing banks in an open, manly way, keep Max on the question altogether. The Madison Democrat, the official paper of the State and of the party, openly claims him as appoind to all Banks! It is a matter of good that in the first Constitutional Convention Mr. UPRAM vote I facever to prohibit the establishment of Banks and the circulation of Bank paper

All these things are underied and underiable. What is the irre-istible interesce? That the "demoeratic" candi lates are either hostile to Banks, or intend to maintain on armed neutrality on the question. A STAB AT THE ATTORNEY GENERAL!

The Commercial Admitiser, entertaining some sceret gradge a minst Mr. Establish, the demo cratic noninee for Attorney General, makes point of actacking one vote in the Constitutiona Convention, on the exemption article, with the view of prejudicing Mr. Estanbook in the eveand estimation of "the democracy." Thus in Thursday's paper, the editor 'discourses" in this

His rot, against the only protection and safe-guard of the poor, laboring man, from the ex-treme exaction, of the law, and the grasping graries of relembest creditors, is no record. By his "acts" judge of his devotion to the interests of of the mechanic and the laborer. And let him jus-tify or exemina e hisemity to poor men's rights, before he assumes to speak for them, and defend them.

The rote in question was given in compan with Messes, Lorey, Ferzonaum, Fowers and Kilbooms, our "democratio" colleagues from this County, and for the single reason that we regarded the provision as out of place, and superfluous. Not so Mr. Establish. He too, voted against the "or ly protection and safeguard of the

poor man," but he did more, he spoke against it. Here is what he said; Mr. E-rannook said, as it seemed that whether Mr. E-rabbook said, as it seemed that whether the mandment passed or not, the question was to be accin broaght up in another shape, and that they were to have pasted considerable of a light upon it, he would here as that he should oppose the principle, as a Constitutional provision, is all its moods, leaves, persons, forms and shapes; for if there was any are thing in the old Constitution, which called forth the deep tenthing and dispost of his constituents, it was the article on this very subject. He cared not whose thunder it was, nor who made use of it the wanted mone of it himself. It was a subject which should have no place in the Constitution, and would not it his vote could keep it out "—Convention Desbates, pp. 103, 104.

Well knowing that Mr. Establook expressed these sentiments and gave this vote against the exemption clause, the Connercial, with malicious intent to impugn his "democratic " character and damago his prospects of an election, persists in twitting him, over our shoulders, with "his entreachery than that of the Depere Advertises, for It is secret and underbanded, while the other is open and above board. What has Mr. Establicox dure that the Conneccial should thus seek to

state him under the fifth rib? Missour At the recent election in Missour of three judges of the Sapreme Court, being the first selection by the people, it seems that one of each party was chosen. WHAT BUL WAUKER HAS DONE.

The Budger State, published in Janesville, in ticing the recent contract for the completion of the Milwankee and Mississippi Railroad as far as Madison, went out of its way to indulge in the following gratuitions fling at our city:
Milwaukee neglected her true interests too long, and we are glad to see her arrowing in her strength to secure for herself these advantages of trade and

rayel which she was well night losing in her apa-hu for all improvements outside her city limits. Assuming that our June-ville contemporary disp not wilfully deceive its readers and missepresent our City in this matter, we have to regret that it was so lamentably ignorant of the facts of the case. For the benefit of the Ladger State and

any other doubters, if doubters there be, of Milcarse of Internal Improvements, we will briefly rate what our City has done, within two years 1484, "outside her limits," towards opening and inproving communications with the interior. 1. The Milicankee and Mississippi Reil-Road.
Of this work, twenty and a half miles are in ope-

ration; six more leady for use; fitteen in an advanced state of progress, and the whole under contract to Madisan (95 miles) to be finished by anuary 1st, 1859. Towards this Improvement, outside her city limits," Milwacker in her cor-orate capacity has given \$250 000, and individul citizens \$155,000 more.

2. The Milwankee and Watertown Plank Road This read, commenced rather more than two years since is now completed. It extends from our city forty-fire tailes, north of west, to Watertown, in Jefferson County. The cost of it was not fur from \$190,000, of which about \$80,000 ame from Milwaukee.

3. The Milwankee and Joneso He Plank Road Of this road twenty-tie miles are completed on the direct line, and electer on the branch to Waterford making, in all, thirty-seria miles, at a cost of abou

\$75,000, all of which was paid by Milwaukee. 4. The Milwankee and Lisbon Plank Rond. About fifteen miles of this road are completes and in operation. It cost some \$20,000, and was built principally by Milwankee Capital.

5. The Milwanker and Fond du Las Plani

Road. Of this route, eight and a half miles ar planked and in use, costing not far from \$23, 000; pretty much all farmished by Milwankee. 6. The Menomine and Hamboldt Plank Road These are short pieces of road; the first-abou ive miles in length and completed, leading ou from the Fifth Ward along the Menominee; the other, three miles in length, leading to the Mills a Humbokh-both built by Milwaukee Capital nd costing say \$13,000.

Recapitulating these statistics, we find that MILWAUKER, in two short years, has subscribe ! and paid out the sum of six hundred and sives TV-EIGHT THOUSAND DOLLARS, in the construction of twenty-seven miles of Rail-Road, and one has leed and thirteen miles of Plank Hond. If the looks like "apathy towards all improvements on side her city limits," we would like to have the Rock County Budger point us to a sample of a indy. Or if there be another City in the Union, of the same size and means as Milwaukee, which has done more for improvements, "outside its limits," during the past two years, we should like to know it. Certainly no unprejudiced man c. n deny that our City has given the most substanti d proof of her zeal for Internal Improvements, and msidering the hard times, the short crops and other adverse circumstances of the past two years, may well claim to have accomplished wonders. -Nor is Milwauxee tired of well-doing yet; as we hope, ere long, to convince even our Janesville

neighbors.

The Commercial, which was at first disposed to back out of its proscriptive attack upon the FAR-MEAS and MECHANICS, is so far encouraged by the Wisconsin's "aid and comfort," as to resiterate its obnoxious sentiments with the subjoined prefix:"

The following harmless statement of ours, which we uttered, AND WHICH WE STAND 10, and in which we will be borne out by every hor est and high-minded mechanic in the land, notwithstanding the Sentinch's assumed holy horror and affected indignation at the "wholessic calumny." affected indignation at the "wholesale calumny?" It is claimed for Mr. Fanwrut, that he is a right down clover fellow—a good natured, good hearred, agreeable man, and one who is well liked in his neighborhood. These are all elever things, it is true, to be said of the abolition, Several candid the for the first office in Wissonsin, but could they not equally be applied to hundreds and thousan do of our honest farners and mechanics, who are revet dreamed of their being powered of the requisite qualifications for such a station?

We have good mechanics,

This declaration, says the Commercial, "WE WILL STAND TO." And what is more, "every honest and high-minded mechanic in the land" will bear us out in it. Very well. We are content to submit the question, without further argument, to the parties thus confidently appealed by the Commercial. How say you, FARMLES, Michanics and Working-man of Wisconsin! Is the Commercial Advertiser,—Mr. Uphan's "home organ," and a recognized oracle and exponent of Hunker "Democracy"-is it "horne out" number "Democracy"—is it "horne out" by you in the objection which it here urges and citerates against LEONARD J. And the Sential when asked if he is so pledged, is "name," by silence consenting to the charge.—Commer of Advertiser.

We never saw the "charge" except in the Commercial, which nobody believes and which it is quite mosece sary to contradict. But since it topes to prop up its say-so by our "silence," we ronounce the charge to be wholly fabulous and

What does it Mean"—We see appended to the proceedings of the Fifth Ward Democratic Meeting held hat evening at the Menomone Saloon, the name of Edward Wunderly, as Se-cretary.—Wisconsin.

This is the introduction, in last evening's Wi consin, to an onelaught upon Dr. Wunderty, for having voted last June to make the Sentinel the official paper. The Wisconsin, no doubt, would like to read the Doctor out of the party for this high crime and misdemeanour, but having itself been drammed out of comp as a deserter, has no power to work its will. DODGE CO. SENATOR.—STODDARD JEED, of Fox Lake, has been nominated as the Loco candidate for State Senator. The Watertown Chronicle thinks the nomination a good one-to beat, and

furnishes the following brief biography of the candidate:

Originally a Democrat, has became a Conservanive in 1840, and voted for General Harrison;
held the office of receiver at Green Bay, under
John Tyler; was removed by Mr. Polk, and seen
after, by way of spite, accepted a Whig nonination for the legislature; then turned Democrat
again, the more successfully to obtain the "spoile,"
became a Free Soiler in 1448, and was the noninee of that party in this district for member of
Congress, and for the past two years has been
gradoully elbowing his way into the Democratic
party for the third time! eandidate :

DROUGHT AT CINCINNATI. - The Cincinnati Ga atte of monday says)

"The low stage of water in the river is prostrating every class of business. It is now approaching our citizens in a very unpalatable direction. The meats in our markets have risen twenty-five precent, from the scarcity of eattle, caused by the contracted facilities for transportation, either hyland or water. Our book and newspaper publishers, and other persons depending on machinery propelled, or requiring water, are suffering materially from drought. It is now the standing apology for all kinds of business short-comings." Sinte Superlatendent.

Narrow Escape of a Railroad Train from Essive Bestunction.

Bultimore, October 11.

A passenger train on the Baltimore and Philadelphia Railroad came near being run into the Sequehanna Biver last evening.

Travellers over the Road will recollect that the Sequehanna is crossed on a ferry-boat, and that the mile are so laid as to connect, when properly adjusted, with a track on the upper deck of the tout, on which the laggage-car is trun—the passengers southward toking another train at Havre de Grace. By some reismanagement, the train in question was not stopped in time, and except for the promptness of a negro man, who checked the whoels, must have non cross the deck of the forry, and thence plunged, a distance of twenty-five feet, into the water, which is quite deep at this point, with a strong entreot. When the movement of the train was already langing over the river, Had it proceeded a few test further, the loss of nearly or quite all the passengers in the train would have been mayorishable. A narrow escape truly. The mail car was sunshed into pieces, and the train was detained upwards of two hours in consequence of the difficulty.
